

PRANAV SHARMA

AI/ML STUDENT · DEVELOPER · LINUX USER

Una, Himachal Pradesh, India · 9317289624 · pranavsharmajk08@gmail.com · Instagram: @Scemppyy_ · GitHub: github.com/Scemppyyy

PROFILE

B.Tech AI/ML student and developer who learns by building, breaking, fixing and experimenting. Hands-on experience spans Python, C/C++, web development, computer vision, AI prompting, Linux/Arch and creative production. Interested in understanding how systems work and making them work better.

SKILLS

Technical: Python · C · C++ · JavaScript · HTML · CSS · AI/ML · Computer Vision

Creative & Production: Adobe Premiere Pro · Adobe After Effects · Adobe Photoshop · Motion Graphics · Color Grading

Tools & Other: Git/GitHub · Linux / Arch · Content Strategy · Photography · AI Prompting

EXPERIENCE

Freelance Video Editor — Self-employed · Archived creator work

- Worked with multiple content creators on video editing and short-form social content.
- Created short-form videos, animated GIFs and motion graphics for Instagram, YouTube and other platforms.
- Used text, video, visual elements, color correction, grading and effects to produce clear, engaging edits.
- Managed client communication and delivered edits on time for review and final delivery.

SELECTED PROJECTS

Driver Drowsiness Detection System — Built a real-time Python/OpenCV drowsiness detection tool using facial landmarks to flag signs of fatigue. Presented the project at a college tech fest and finished runner-up.

Hostel Admission Form Digitization — Converted a printed hostel admission form into a pixel-accurate, fillable HTML web form with character-grid inputs.

Valorant-Themed Portfolio Site — Designed and built an interactive personal portfolio in HTML/CSS/JavaScript with a custom visual theme and UI interactions.

Own AI Assistant — Personal local Python assistant built to handle useful tasks.

Lifestyle Tracker — C++ console-based tracker for habits and routines.

ACHIEVEMENTS

- Tech Fest — Runner-up: presented an idea and built a driver drowsiness detection system during the first year of the degree.
- AI Prompting — Mastered: practical prompting for research, ideation, automation and AI workflows.

EDUCATION

B.Tech, Artificial Intelligence & Machine Learning — Lyallpur Khalsa College Technical Campus (LKCTC), Jalandhar · PTU · In Progress · 1st Year
